## SAIPH® KNEE PATIENTS ARE SATISFIED – ARE YOURS?

The SAIPH® Knee is a second generation medially stabilised knee system developed wholly for the principle of medial rotation and is provided by the originators of the concept. It encompasses all the key features associated with more than 25 years' clinical success and more: more bone conserving, anatomical and low profile design, increased range of sizes, a more natural freedom of movement, and more satisfied patients.

**CHAIRMAN**  
A/Prof Andrew Shimmin  
Melbourne, AU

The SAIPH® Knee is a 'one concept fits all' solution, suitable for all primary TKR patients who wish to regain a stable and natural freedom of movement. This webinar will re-establish the goals of total knee replacement, cover the development of the concept and review the experience of surgeons and patients over the 12 years since it was first implanted.

SAIPH® Knee System

### INVITED FACULTY

Mr Jonathan Baré  
Melbourne, AU

Mr Andrew Barnett  
Shropshire, UK

Professor Debi Ronen  
Tel Aviv, Israel

Mr Simon Lewthwaite  
Shropshire, UK

Mr Dennis Molloy  
Belfast, UK

Mr Tony Smith  
Shropshire, UK

Dr Edwin Su  
New York, USA

Mr Paul Trikha  
London, UK

Mr Simon Talbot  
Victoria, AU

Professor Bill Walter  
NSW, AU

Organised by: Clockwork Medical, The Cart House, 2 Chestnut Barns, Village Street, Sedgebrook, Grantham, Lincs NG32 2EW. t: 01949 843900 e: bookings@clockwork-uk.com | www.clockworkmedical.com
